DETAILED ACTION

Claim Objections

1. Claims 1-4 are objected to because of the following informalities: inconsistent terminology. Changing "the high resistance layer" to "the high-resistance layer" in claim 1, line 22; and adding a semicolon (;) after "the emitter region" in claim 1, line 12 are suggested. Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not teach or suggest, singularly or in combination, at least the limitations of "a gap is formed between the passivation layer and the upper heat-sinking part such that the passivation layer does not directly contact the upper heat-sinking part" as recited in claim 1.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
